English ancestors considered cannibalism and fever-few to have a similar character. The essential oil obtained from such plants also have powerful effects when exposed to sunlight; in a lesser degree such perfumes as eau-de-cologne, essence of lavender, extract of millaire, etc., all attributed to the power of producing ozone. Other plants, however, which do not produce

lial oils, appear to have a similar effect in preventing malarial diseases, and rendering malarious districts healthy. Some parts of the well-known campaign, near Rome, immense areas of land were rendered the localities where malaria grew quite healthy, but upon their destruction, these districts became unhealthy. It is distasteful to the man of letters to sit at a table, as he seats himself at table and unrolls the napkin, to be haunted by the suspicion that his butter is oleomargarine, his cheese is lard, and that his ham are trichinosis. TALL PICKLES.
The Pickles family are conspicuous for
Mr. Laurezo A. Pickles, of Newfano,
Tara county, New York, peddles trees
through western New York. He is
fifty years old, and measures six feet,
inches in height. He has thirteen
sons and eight brothers, and he is the
best of the entire family. One brother,

lives in Kentucky, is seven feet and one-half inches in height, and has two hundred and seventy-five pounds, although he is spare in flesh. His little sister is six feet five and one-half inches tall. The family is scattered, two living in the same state. Lorenzo never wears a coat, and goes about without stockings, winter and

ner. He never taste^d liquor of any kind in his life, and never drinks beer. Three small cups of tea a day, in winter and summer, suffice to quench Pickles's thirst. He never eats any meat. His chief article of diet is pork, although he likes salt meats and fish. He eats two table-spoonfuls of every day, and prefers salt to sugar in

ten. He and cake or sweetmeats of kind he never tasted. He says he owes his hale and hearty condition is mainly to the salt he uses. Mr. Jew is a widower, but he has two daughters. The oldest is six feet and half inch tall; the youngest is five feet inches; and their father says they both still growing.

The Canadian house of commons has passed a resolution to exempt beet sugar from excise duty for eight years. This is to encourage the manufacture of beet sugar in Canada.

HINGHAM.

We have been having quite a talk in
Hingham about bringing manufacturers
here, and at last some of our rich and
noble have woken to a plan which,
if carried out, will put our town very
materially. Some four weeks ago an
address was delivered before the Hingham
Agricultural and Horticultural So-

ciety by Mr. McCallan, now of Hingham,
but formerly of Portland, Maine,
in regard to the feasibility of establishing
in Hingham the business of can-

ning green corn. We have hundreds
of acres of land well adapted to the
raising of corn; at Portland the business
of canning corn is carried on ex-

tensively and is made very profitable;
here the season is at least a week—per-
haps two weeks ahead of Portland, and
we are all of a hundred miles nearer to
Boston.

At a meeting held at the residence of Mr.
Edmund Hervey, ex-president of the
Agricultural Society, Mr. Ebel L. Rip-
ley, the present President, and Mr. L.
J. B. Lincoln, the largest receiver of
canned goods in Boston, are considering
this project, which, if carried out
successfully, will prove a benefit not
only to the farmers of Hingham, but to
a large number of people who would
find employment at the factory. We
may add that all of the stock of such a
concern would be taken up readily; the
moment it should be known that it was
offered.

One Town Meeting on Saturday evening was a lively one.
Francis S. Lincoln was chosen Moderator,
and filled the position admirably. The
proposition to select the Extinguisher
and Niagara engines was voted down,
or rather it was voted to retain them for
the present, at least, but that the com-
panies shall be attached to them. Hingham
Centre is probably to have a hose
carriage.

But \$200 in all was appropriated at
the meeting, and that was for a very
much needed improvement on Hervey St.

Although no great amount of business
was transacted, there was a good
deal of sparring between some of the
intellectual gladiators of the town.

Real Estate.

As we have predicted, there is al-
ready quite a movement here in real
estate, and building lots are in demand,
to be built upon. Mr. L. J. B. Lin-
coln has sold to Mr. George A. Thayer
the lot opposite his residence on Old
St., one of the finest sites that over-
look our harbor—and Mr. T. will con-
sider to build at once. Mr. Ware's
house on the same street is progressing,
and the large house of Mr. Edmunds,
opposite Melville Garden, on Old St.,
is nearly completed. The houses now
being erected in Hingham are mostly
first class. Probably before another
season there will be several out-
buildings at the foot of the hill. There
are here a lot, and still more are
called for. The next two years will
witness great improvements along the
water front of Hingham.

We hear rumors of other sales of
building lots, but cannot at the time of
writing get at full particulars.

Was given by the St. Paul's Dramatic
Club on Wednesday evening of last
week, at St. Paul's church, "Edified
for the War" being presented with a
strong cast, each part being well per-
formed. Harp songs were given by J.
Hennessey, and Tower's orchestra per-
formed excellent music. A large au-
dience was in attendance and the affair
was a complete success.

Appointments.
The Selectmen, at their regular meet-
ing on Monday afternoon, appointed
the following Board of Engineers—
Geo. Cushing, Jason W. Whitney, Wm.
F. Hurden, Moses Cross, Henry Mer-
ritt, Fred S. Jacobs and Henry J. Man-

ning. Officer Giles H. Gardner was also ap-
pointed Keeper of the Lockup for the
ensuing year.

Temperance.
Capt. O. R. Van Etting, of the Na-
tional Prohibition Alliance, delivered a
very able lecture at the M. E. church
last Sunday evening upon "How we
must save the boys." There was good
attendance, and the speaker left a very
good impression, and one which we
trust will be lasting.

QUINCY.

It costs \$25 to pay the firemen this
year. The Chief has a salary of \$25.
The first race of the yacht club will
take place June 4, at 2 p. m., off the
Point.

Mrs. Blanchard reached her 90th
birthday Monday week, and at the cele-
bration her descendants to the fifth gen-
eration were present.

The fire engines appointed are J.
W. Hall, J. W. Hayden, J. M. Glover,
T. H. McDowell and H. F. Lacy.

Pneumonia is prevalent.

HINGHAM.

We have been having quite a talk in
Hingham about bringing manufacturers
here, and at last some of our rich and
noble have woken to a plan which,
if carried out, will put our town very
materially. Some four weeks ago an
address was delivered before the Hingham
Agricultural and Horticultural So-

ciety by Mr. McCallan, now of Hingham,
but formerly of Portland, Maine,
in regard to the feasibility of establishing
in Hingham the business of can-

ning green corn. We have hundreds
of acres of land well adapted to the
raising of corn; at Portland the business
of canning corn is carried on ex-

tensively and is made very profitable;
here the season is at least a week—per-
haps two weeks ahead of Portland, and
we are all of a hundred miles nearer to
Boston.

At a meeting held at the residence of Mr.
Edmund Hervey, ex-president of the
Agricultural Society, Mr. Ebel L. Rip-
ley, the present President, and Mr. L.
J. B. Lincoln, the largest receiver of
canned goods in Boston, are considering
this project, which, if carried out
successfully, will prove a benefit not
only to the farmers of Hingham, but to
a large number of people who would
find employment at the factory. We
may add that all of the stock of such a
concern would be taken up readily; the
moment it should be known that it was
offered.

One Town Meeting on Saturday evening was a lively one.
Francis S. Lincoln was chosen Moderator,
and filled the position admirably. The
proposition to select the Extinguisher
and Niagara engines was voted down,
or rather it was voted to retain them for
the present, at least, but that the com-
panies shall be attached to them. Hingham
Centre is probably to have a hose
carriage.

But \$200 in all was appropriated at
the meeting, and that was for a very
much needed improvement on Hervey St.

Although no great amount of business
was transacted, there was a good
deal of sparring between some of the
intellectual gladiators of the town.

Real Estate.

As we have predicted, there is al-
ready quite a movement here in real
estate, and building lots are in demand,
to be built upon. Mr. L. J. B. Lin-
coln has sold to Mr. George A. Thayer
the lot opposite his residence on Old
St., one of the finest sites that over-
look our harbor—and Mr. T. will con-
sider to build at once. Mr. Ware's
house on the same street is progressing,
and the large house of Mr. Edmunds,
opposite Melville Garden, on Old St.,
is nearly completed. The houses now
being erected in Hingham are mostly
first class. Probably before another
season there will be several out-
buildings at the foot of the hill. There
are here a lot, and still more are
called for. The next two years will
witness great improvements along the
water front of Hingham.

We hear rumors of other sales of
building lots, but cannot at the time of
writing get at full particulars.

Was given by the St. Paul's Dramatic
Club on Wednesday evening of last
week, at St. Paul's church, "Edified
for the War" being presented with a
strong cast, each part being well per-
formed. Harp songs were given by J.
Hennessey, and Tower's orchestra per-
formed excellent music. A large au-
dience was in attendance and the affair
was a complete success.

Appointments.
The Selectmen, at their regular meet-
ing on Monday afternoon, appointed
the following Board of Engineers—
Geo. Cushing, Jason W. Whitney, Wm.
F. Hurden, Moses Cross, Henry Mer-
ritt, Fred S. Jacobs and Henry J. Man-

ning. Officer Giles H. Gardner was also ap-
pointed Keeper of the Lockup for the
ensuing year.

Temperance.
Capt. O. R. Van Etting, of the Na-
tional Prohibition Alliance, delivered a
very able lecture at the M. E. church
last Sunday evening upon "How we
must save the boys." There was good
attendance, and the speaker left a very
good impression, and one which we
trust will be lasting.

QUINCY.

It costs \$25 to pay the firemen this
year. The Chief has a salary of \$25.
The first race of the yacht club will
take place June 4, at 2 p. m., off the
Point.

Mrs. Blanchard reached her 90th
birthday Monday week, and at the cele-
bration her descendants to the fifth gen-
eration were present.

The fire engines appointed are J.
W. Hall, J. W. Hayden, J. M. Glover,
T. H. McDowell and H. F. Lacy.

Pneumonia is prevalent.

The number of correct responses increased with the number of trials for all conditions. The number of correct responses was highest for the condition with the highest number of trials (10 trials) and lowest for the condition with the lowest number of trials (2 trials).
